Greetings to the Graduates

As we go through life, our progress is marked by special moments when we turn corners and new horizons open before us. This convocation of scholars celebrates the happy observance of such an important turning point in your lives.

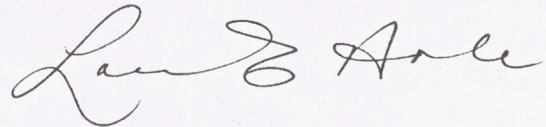

The ceremony is steeped in customs that have been passed down to us over the centuries. It is sedate, colorful, traditional, and meaningful. We hope you enjoy the experience and participate in the goodwill that permeates a day to be remembered.

By conferring its degrees, the University confirms that you have successfully fulfilled a rigorous course of study and have earned the right to enter into the collegiality of educated women and men. Be proud of what you have done, and be grateful for what the University has done for you.

Understand that the University of Alberta is not just the campus you know so well. It is everything that our graduates

of yesterday, today, and tomorrow accomplish to make our world a better place to live in. Today you join a worldwide community of alumni, a hundred thousand strong, whose support and interest is vital to the enhancement of the quality and the value of the degrees which you receive today. Keep in touch, and never forget the University that nurtured the mind you use every day. You entered to grow in wisdom. You leave the better to serve your community and yourselves.

Welcome and Congratulations.

Lois E Hole, CM, AOE
Lieutenant Governor of Alberta and Chancellor

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge. The faculty's task is facilitated by their colleagues in the academic staff, the Faculty Service Officers, the Administrative Professional Officers, the Librarians, and the University's dedicated support staff.

The faculty, numbering some 1,600, is responsible for creating programs of study, for teaching, and for evaluating the learning of the student body, both undergraduate and

graduate. In addition, faculty members are responsible for the scholarly reputation of the University by preserving and sharing knowledge and by pursuing new ideas and knowledge through their research.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. Your achievement deserves praise. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. We would remind you of the advice given to graduands by Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

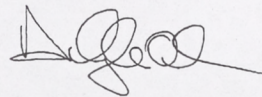

Congratulations from the Faculty and Staff!

Our lives are often marked by special milestones that leave indelible impressions on us. For students, convocation is a celebration of achievement that creates lasting memories.

I am pleased to join family members and friends in congratulating you on your convocation. It takes a great deal of dedication and commitment to successfully obtain a goal such as this. You can be proud of your perseverance and success.

Graduates of the University of Alberta are reflective of the talent and creativity that exists in our province. The skills and knowledge you have obtained during your academic career will stand you in good stead throughout your life.

On behalf of the Government of Alberta, I wish you success in all of your endeavours.

Lyle Oberg, Minister
Department of Learning

Honorary Degree Recipient

Mr Wayne Douglas Gretzky, OC, originally from Brantford, Ontario, is internationally recognized as one of the greatest hockey players of all time, an outstanding role model for youth, and a strong supporter of charitable groups and associations.

On January 9, 1998, The Hockey News, using a committee of 50 hockey experts comprising former NHL players, past and present writers, broadcasters, coaches and hockey executives, officially named him "The Greatest Hockey Player of All Time." To his fans, he is simply "The Great One."

A member of the Edmonton Oilers, Los Angeles Kings, St Louis Blues and New York Rangers, his gentlemanly conduct, sportsmanship and astonishing talent made him a role model, on and off the ice, for thousands of young hockey players. He has won four Stanley Cups (all with the Edmonton Oilers) and three Canada Cup tournament titles. He has been awarded ten Art Ross Trophies as the National Hockey League's Most Valuable Player, two Conn Smyth Trophies as the playoff MVP and four Lady Byng Trophies as the NHL's most gentlemanly player. He has played in 19 all-star games. He is the most statistically dominant player in North American team sports.

Mr Gretzky transcends hockey. He ranks as one of the greatest offensive forces in the history of any sport and as a man who will forever be acknowledged as one of the greatest athletes of the twentieth century. When he retired from professional hockey in April 1999 after a 20-year career, Mr Gretzky held or shared 61 NHL scoring records. He had an unprecedented 15 seasons with more than 100 points; four of those with more than 200. "He's made the record book obsolete," said former Minnesota general manager Lou Nanne. "His only point of reference is himself."

Acknowledged worldwide as the best ambassador hockey has ever had, in 1984 Mr Gretzky was appointed as an Officer of the Order of Canada and in November 1999 was inducted into the Hockey Hall of Fame. In recognition of his impact on the game of hockey, the NHL retired his uniform number, the famous "99", across the league. Literally and figuratively, there will never be another "99".

The time and effort Mr Gretzky commits to many service organizations parallel his devotion to sport. He is involved with countless worthwhile causes, endeavors and charities. The CIBC's Youth Vision program provides scholarships to students and the Hudson's Bay Company raises funds for their Pebbles project through the sale of clothing in the Wayne Gretzky Collection. These projects are examples of the combined efforts of Mr Gretzky and his corporate associations.

The Ronald McDonald Houses in Canada and the Boys and Girls Club of Canada have frequently benefited from the Mr Gretzky's support of their corporate sponsors' fundraising efforts. Over the decades, Mr Gretzky has maintained relationships with several entities including the Canadian National Institute for the Blind, the Special Olympics and the RCMP Drug Abuse programs for youth. By assisting the many national and international charities that seek his assistance to benefit the less fortunate, he continues to be a role model for the ages.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Wayne D Gretzky:

Douglas Beube. *Puck's Arena: A Power Play*, Brooklyn, NY, 2000

This unique collage book was commissioned especially in honour of Mr Gretzky. Beube is a major book artist who grew up in Hamilton, Ontario. His volume integrates Shakespeare's *A Midsummer Night's Dream* (with its mischievous sprite Puck), images of mythological creatures by New York photographer David La Chapelle, and images from hockey, where stars like Mr Gretzky become figures of modern mythology. As a hockey player chases a puck in an arena, Puck, in Shakespeare's play, chases the young lovers. The apparently disparate activities of a modern sport and an Elizabethan play merge in the context of a stage set in the shape of a hockey rink. The book is constructed to weave back and forth, like hockey players on ice, to create a narrative line.

From far and wide, O Canada,
We stand on guard for thee.
God keep our land glorious and free!
O Canada, we stand on guard for thee,
O Canada, we stand on guard for thee.

O Canada! Terre de nos aïeux,

The Presentation

The Dean of the Faculty of Education asks the candidates for degrees to rise, and presents them with these words:

"Eminent Chancellor and President, on behalf of the Faculty of Education, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

The Pledge

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

The Admission

The Chancellor then addresses the candidates in these words:

"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees. I charge you to use them for the glory of God and the honour of your country."

The University Cheer Song

Please join in the singing of the University Cheer Song (words and music provided on page 60):

Ring out a cheer for our Alberta
A song of praise to Varsity
For the splendour of our mountains

Honorary Degree Recipient

James M Stanford of Calgary, Chair of the Board of PetroCanada, is an individual who embodies the ideals and principles of outstanding community service and unparalleled business leadership.

Mr Stanford graduated from Loyola College in Montreal with a BSc (Mining) in 1958. In 1960, he completed his BSc (Petroleum Engineering) at the University of Alberta. Upon graduation he accepted a position with Mobil Oil Canada where he worked for nineteen years and held numerous engineering and managerial assignments at several locations throughout western Canada.

In 1978 Mr Stanford joined Petro-Canada as General Manager, Conventional Production. He was appointed Vice-President, Production in 1980 and Senior Vice-President, Production, in 1981. Upon the formation of Petro-Canada Resources in 1982, Mr Stanford was named President. In 1990 he added the title of Chief Operating Officer and in

1993 was named President and CEO. In 1999 he stepped down from this role to become the Chair of the Board.

Under Mr Stanford's leadership, Petro-Canada became a major Canadian success story. He steered the company through the difficult transition from a company in survival mode in 1991 to a premier integrated oil and gas player with sustained, profitable growth in 2000. Petro-Canada has become a company that represents Canada on the world stage as a serious contender in the global economy.

Mr Stanford uses the same skills that propelled Petro-Canada to greatness to provide direct benefit to communities across Canada. He is particularly committed to the fine and performing arts, education and national unity. In 1991 he became Chair of the Board of Directors for the debt-ridden Calgary Philharmonic Orchestra (CPO). In 1993 he headed a special committee that, in six months, raised \$2.5 million to clear the CPO debt and generate funds for new marketing and financial programs. As CEO of the company that brought the Olympic Torch to Canada in 1998, he is committed to sustaining the spirit of nationalism demonstrated by Canadians during the Olympics. He is a long-time supporter of the Council for Canadian Unity, was a director from 1994 to 1996, and is currently a director of the Alberta Chapter and head of the Calgary fundraising campaign.

As past director of Junior Achievement of Canada and current member of the Canadian Irish Studies Foundation at Concordia University and the University of Calgary Chancellor's Club, he is a strong proponent of academic excellence. Petro-Canada's Graduate Research Awards Program and the Petro-Canada Young Innovator Awards Program, in place at many universities in Canada, help strengthen our country's educational and research capability and reputation. Additionally, Petro-Canada's Olympic Torch Scholarship Program has, since 1998, provided nearly \$2 million in scholarships to coaches and athletes for post-secondary education pursuits.

Mr Stanford's many contributions in the area of community service include membership on the Business Council on National Issues, the Alberta Performing Arts Stabilization Board, the University of Alberta's Board of Directors, and the Canadian Irish Studies Foundation. As a business visionary, an activist for national unity, and a supporter of the arts, Mr Stanford reflects a well-rounded desire for the betterment of his community – both locally and nationally.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr James M Stanford:

Leland C Wyman, editor. *Beautyway, A Navaho Ceremonial*. Myths recorded and translated by Father Berard Haile, sandpaintings recorded by Laura A Armer. New York, Bollingen/Pantheon, 1957.

A surprisingly scarce volume, this tome documents a Navaho healing ceremony for women which is traditionally performed over nine nights. The ceremony includes a main narrative chant, many songs, the creation of 23 symbolic sand paintings, and ends with a fire dance on the final night. The remarkable poetry and elaborate mythology of this ceremony can only be appreciated through this sympathetic and exhaustive study. It represents a major addition to the Library's Javitch Collection of North and South American aboriginal materials.

Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

Dr Jozef Straus of Ottawa, one of the leading figures and pioneers of the Information Age, is proof that curiosity-driven research can significantly affect the world in which we live, our quality of life and our stature in the global community.

Dr Straus received his BSc (Honours Physics) from Czech Technical University in 1968. Later that year he moved to Alberta from Czechoslovakia in order to enroll in the Physics program at the University of Alberta. In 1969 he entered the PhD program in the Department of Physics where he specialized in the study of the quantum tunneling effects in normal metals. Upon graduation in 1974 he accepted a position at Bell Northern Research where he held various research and management positions in the area of fiber optic technologies. In 1980 he joined Northern Telecom (now Nortel) where he conducted research and development in the area of fiber optics. In 1981, he and three of his colleagues founded JDS FITEL Inc upon the premise that physical

principles could be used to increase the signal density in fiber optic communications. Dr Straus left Nortel in 1986 in order to work full-time at JDS FITEL. In 1999, JDS FITEL Inc merged with Uniphase Corporation to form JDS Uniphase Corp.

JDS Uniphase Corp, which Dr Straus now serves as Co-Chairman, President and Chief Operating Officer, is the world leader in the design, development, manufacture and distribution of a comprehensive range of optical components and modules for the fiber optic communications market. In 1999, JDS Uniphase had over 10,000 employees worldwide, 15 manufacturing facilities in eight countries and over \$1 billion in sales.

Dr Straus' own confidence in the value of basic research has had a significant impact upon the hiring policies of his company. JDS Uniphase seeks to hire individuals with problem-solving skills rather than persons trained to undertake specific tasks. He personally encourages students to pursue intellectual challenges and to be flexible. He has established the JDS Uniphase Scholarship Award for undergraduate and graduate students in Physics or Engineering Physics from across Canada to "encourage excellence in technology and a commitment to learning". Twenty-two scholarships were awarded in 1999.

Dr Straus' technical and scientific leadership extends beyond his own company. He serves on several scientific boards in Ontario and on the Alberta Information and Communication Technology Advisory Board. He has numerous patents, publications and invited presentations to his credit.

He is one of those rare scientists who have gone into business and been able to continue their personal growth and emerge as an effective and respected senior executive as their enterprise becomes a major global corporation. He has the ability to apply his scientific expertise to the world outside the laboratory, to envision how the world is evolving, what potential new technologies offer, what new products are required, how to design, manufacture and deliver them, and what their societal implications might be. Due to the leadership of Dr Straus, JDS Uniphase Corporation not only capitalizes on profound technological change, it causes part of that change.

Dr Straus is a distinguished Canadian who has proven that one need not leave Canada to build a global, high technology company. He brings great distinction to his alma mater and his country.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Jozef Straus:

[Charles Molloy Westmacott] *The English Spy: an original work, characteristic, satirical, and humorous....* London, Sherwood, Jones, 1825-26. Two volumes, bound in full red morocco leather.

Lavishly illustrated with 71 hand-coloured aquatints by Robert Cruikshank, plus many other pictures, this extraordinary work is a veritable 'chronique scandaleuse' of the Regency era in early 19th-century England. It contains vivid and witty portraits and sketches of "the Illustrious, Eminent, Eccentric, and Notorious" in Eton, Oxford, London, Bath, and fashionable society. It is an unrivalled and entertaining portrait of a flamboyant era in English history.

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The Pledge

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

Honorary Degree Recipient

Couvrette/Ottawa

Dr Thomas A Brzustowski of Ottawa, President of the Natural Sciences and Engineering Research Council of Canada (NSERC), has had an exemplary career as a scholar, academic administrator, senior government official and international leader for the support of engineering and science research in Canada.

Prior to joining NSERC, Dr Brzustowski enjoyed an outstanding career in university and government. An engineer, he received a BSc(Engineering Physics) from the University of Toronto in 1958 and a PhD in Aeronautical Engineering from Princeton in 1963. He was a professor at the University of Waterloo from 1962 to 1987, teaching and carrying out research in thermodynamics and combustion. He served as Chairman of the Department of Mechanical Engineering from 1967 to 1970 and as the Vice-President (Academic) and Provost from 1975 to 1987. During his distinguished academic career he authored more than fifty refereed journal papers and proceedings papers.

From 1987 to 1991, Dr Brzustowski served in the Government of Ontario as deputy minister in the Ministry of Colleges and Universities, and from 1991 to 1995, as deputy minister to the Premier's Council.

He was appointed president of NSERC in 1995. NSERC makes investments in Canada's capabilities in science and technology by providing grants in aid of basic university research, assistance to university-industry partnerships for project research and support for the advanced training of researchers in both areas.

Under his leadership, NSERC maintained a focus on support of core research activities through the Research Grants Program. He fostered closer linkages between industry and NSERC supported university researchers. His tenure at NSERC has seen a remarkable increase of industry support for research and innovation in universities, and NSERC programs supporting the education and training of highly qualified personnel have flourished. Under his leadership, NSERC has become Canada's single most important instrument for strategic investment in science and technology.

Dr Brzustowski has done much to connect the general public in Canada to scientific research and to help Canadians understand the importance of research and innovation to our country's future. He has travelled tirelessly across Canada, making presentations on the achievements of Canada's scientists and the importance of science and innovation to Canadian industry and the future of the country.

Among his many honors are his election as a Fellow of the Canadian Society for Mechanical Engineering in 1987, election as a Fellow of the Canadian Academy of Engineering in 1996 and the Julian C Smith Medal, awarded by the Engineering Institute of Canada in 1997. The acknowledged Canadian leader in academic research policy and funding, Dr Brzustowski has led Canada to an unprecedented level of support in University-based research.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Thomas A Brzustowski:

Roman De Hooghe. *Hieroglyphica Of Merkbèelden Der Oude Volkeren*. ... Amsterdam, Jors Van Der Woude, 1735.

Lavishly illustrated with 64 etched plates, woodcuts, and ornaments by the author, this is the first edition of a rare and scholarly description, history and analysis of classical mythology and Christian symbolism. It represents an important addition to the Library's holding of early European cultural classics.

The list of candidates for degrees and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically according to the establishment date of each faculty and degree. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

Louis Davies Hyndman, OC, QC, of Edmonton, a former Chancellor of the University of Alberta, has had a distinguished career in the fields of law, public service and community service.

A native Edmontonian, Mr Hyndman completed his primary and secondary schooling in the city. An alumnus of the University of Alberta, he received his BA (1956) and LLB (1959) degrees from this institution. During his student days, he served as the Law Representative to the Students' Council (1957-58), speaker of the model parliament and president of the Students' Union (1958-59). He also served on the History Club Executive and the Debating Society Executive. Upon being admitted to the Bar in 1960, he began his law career as a general practitioner with the Edmonton firm of Field and Field.

In 1967, at the age of 32, Mr Hyndman was elected to the Legislative Assembly of Alberta. He won re-election four times (1971, 1975, 1979 and 1982) to the government of Premier Peter Lougheed. The Premier, recognizing Mr Hyndman's leadership skills, appointed him as a member of cabinet throughout his time as a government member. Mr Hyndman was Minister of Education from 1971 to 1975, Minister of Federal and Intergovernmental Affairs from 1975 to 1979, Government House Leader from 1971 to 1979 and Provincial Treasurer from 1979 to 1986. In every portfolio, he gained a reputation as a respected and integral member of the government who treated opposition members, constituents and staff alike with the same level of courtesy, dignity and thoughtfulness.

Mr Hyndman retired from public life in 1986 and rejoined his former law firm, now known as Field Atkinson Perraton. Currently a senior partner, he practices in the areas of administrative law, business law and government relations. He is presently a member of the Board of Directors for several companies including Canada Trust, Oxford Properties Group Inc and TransAlta Corporation. He was appointed Queen's Counsel in 1975 and was appointed an Officer of the Order of Canada in 1993.

Mr Hyndman's highly respected skills as a conciliator and mediator have been frequently called upon by leaders at both the provincial and federal levels. Since leaving politics Mr Hyndman has chaired the Premier's Commission on Future Health Care for Albertans (1988-90) and the Federal Royal Commission on a National Passenger System for Canada in the 21st Century (1989-92), the Canadian Safety and Accident Board Review Commission (1993), the Calgary Hospitals Rationalization Facilitation (1994) and the Edmonton Region Economic Summit (1997). He was Hon Captain(N), 4th Destroyer Squadron, Royal Canadian Navy (1993-96) and is currently Project Chair of the Alberta Capital Region Governance Review.

A long-time participant in community organizations, he has served as a director of the Asia Pacific Foundation, the CD Howe Institute and the Royal Alexandra Hospitals Foundation. He was also the Honorary Chair of the Goodwill Rehabilitation Institute of Alberta.

In 1994, Mr Hyndman was elected as the fifteenth Chancellor of the University of Alberta. During his four-year term he provided strong leadership to both the Senate and the Board of Governors and succeeded in building many bridges between the University and the communities it serves. Now Chancellor-Emeritus, Mr Hyndman continues to be a role model for public service, community service and the profession of law. He is active in charitable and educational organizations and serves as a sterling example of the positive effect an honourable and altruistic individual can have.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Louis Davies Hyndman:

Robert Glover. *Nobilitas Politica vel Civilis*.... London, William Jaggard, 1608.

This handsome volume contains nine full-page engravings, woodcut ornaments, and initials, and bears the bookplate of the Duke of Kent [1664-1740].

Glover was one of the most accomplished of English heralds and genealogists, and this rare, scholarly volume illustrates the costumes of the English nobility – baron, viscount, duke, and others, as well as Queen Elizabeth enthroned. It will be of great use to students of English history and historical costume.

Graduates

The list of candidates for degrees and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. The winner of the most prestigious award in each faculty, if attending, is presented first.

True patriot love in all thy sons command
With glowing hearts we see thee rise,

We stand on guard for thee.
God keep our land glorious and free!
O Canada, we stand on guard for thee,
O Canada, we stand on guard for thee.

O Canada! Terre de nos aïeux,
Ton front est ceint de fleurons glorieux!
Car ton bras sait porter l'épée,

The Presentation

The Dean of the Faculty of Engineering asks the candidates for degrees to rise, and presents them with these words:

"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Honorary Degree Recipient

Archbishop Emeritus Desmond Mpilo Tutu of South Africa has lived an outstanding life as a spiritual church leader and a peace and human rights activist. He is highly respected and admired worldwide.

Archbishop Tutu was born in Klerksdorp, South Africa in 1931, the son of a schoolteacher and a domestic worker. At the age of 12 he first met, and was later greatly influenced by Father Trevor Huddleston, an Anglican cleric in the Johannesburg township of Sophiatown and an outspoken early critic of apartheid.

After graduating from the Johannesburg Bantu High School, Archbishop Tutu completed a teacher's diploma and a Bachelor of Arts degree. He taught at the high school level for the next four years.

In 1958, following the introduction of Bantu education, Archbishop Tutu entered the ministry, received his Licentiate in Theology and was ordained to the priesthood in Johannesburg in 1961. Shortly afterward, he went to study in London where he obtained Bachelor of Divinity (Honours) and Master of Theology degrees. In 1967 he returned to South Africa, joined the Federal Theological Seminary in Alice and became Chaplain at the University of Fort Hare.

Archbishop Tutu became Dean of St Mary's Cathedral, Johannesburg in 1975 and shortly thereafter was elected Bishop of Lesotho. By this time South Africa was in turmoil and in 1978 he was persuaded to leave Lesotho to accept the post of General Secretary of the South African Council of Churches (SACC). A subsidiary body of the World Council of Churches, the SACC is committed to the cause of ecumenism and to fulfilling the social responsibility of the church. Justice and reconciliation feature prominently among its priorities. During his tenure with the SACC (1978–1985), Archbishop Tutu became an international figure for speaking out against the injustice of apartheid. He called for economic sanctions against the white government and became a lead figure in the campaign to bring racial justice to South Africa. In 1984 he received the highest award the world offers, the Nobel Peace Prize, in recognition of his leadership in the non-violent struggle for liberation from apartheid.

In 1985 Bishop Tutu was elected Bishop of Johannesburg and in 1986 was elected Archbishop of Cape Town. With the release of Nelson Mandela and the unbarring of the African National Congress and other political organizations in 1990, Archbishop Tutu became a principal mediator and conciliator in the difficult period of South African history leading to the first democratic elections in 1994. After the elections, President Mandela appointed Archbishop Tutu as head of the Truth and Reconciliation Commission, the body charged to deal with the legacy of human rights violations during the apartheid period.

He retired from office as Archbishop of Cape Town in June 1996 and was named Archbishop Emeritus in July 1996. Archbishop Tutu continues to shape South African Society. He has not been afraid to criticize the new government and remains an outspoken advocate for social justice, freedom, and equality in South Africa and around the world.

Archbishop Tutu has single mindedly pursued truth and justice throughout his life and is a strong example to the world that it is possible to make a difference by standing up for what is right. In 1999 he delivered the inaugural Visiting Lectureship in Human Rights at the University of Alberta.

The University Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Archbishop Emeritus Desmond Mpilo Tutu:

John Bunyan. *The Pilgrim's Progress*. Translated into Cree Indian syllabics by the Venerable Archdeacon Vincent. London, Religious Tract Society, 1886.

This rare translation of Bunyan's beloved seventeenth-century Christian narrative of adventure and salvation is a significant addition to two major library collections. The first comprises the most important Bunyan collection in Canada, including some 80 editions of *Pilgrim's Progress* published before 1800, plus more than 20 translations. The second collection features works translated into the First Nation languages of Canada, and is contained within the Javitch and Rutherford collections.

The list of candidates for degrees and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically according to the establishment date of each faculty and degree. The winner of the most prestigious award in each faculty, if attending, is presented first.

The University Cheer Song

Please join in the singing of the University Cheer Song (words and music provided on page 60):

*Ring out a cheer for our Alberta
A song of praise to Varsity
For the splendour of our mountains
Our prairies green and gold,
Ranked beneath whose glowing colours,
Thy legions march enrolled.
Our memories will live forever
Beloved University
We will fight for thee and cheer
And ever hold thine honor dear.

On May 12, 2000 the University of Alberta Senate elected prominent businessman, community leader and education advocate John T Ferguson, FCA, LLD(Hon) as the seventeenth Chancellor of the University of Alberta, a position he will hold for four years.

Born and raised in Edmonton, Mr Ferguson graduated from the University of Alberta in 1964, having earned his Bachelor of Commerce degree. He articulated for his chartered accountant designation with (then) Price Waterhouse & Co. In 1975, after six years with Numac Oil & Gas Ltd of Edmonton, where he served as Vice President and Treasurer, he founded Princeton Developments Ltd. It has grown to be a major player in Canadian commercial real estate development and a world leader in property development in cold weather climates. Mr Ferguson currently serves Princeton as Chair of the Board.

A prominent senior Canadian executive, Mr Ferguson is Chair of the Board of TransAlta Corporation. He also serves on the Boards of a number of large enterprises including the Royal Bank of Canada and Suncor Energy Inc.

His current community involvement includes participation on the Boards of numerous research and educational associations including The Canadian Institute for Advanced Research, the CD Howe Institute, and the University of Alberta Business Advisory Council.

Mr Ferguson has long been involved with the University of Alberta. A former Chair of the Board of Governors (1994-1997), he is also a former Chair of Research Technology Management Inc, a University of Alberta company mandated to profitably commercialize University researched technologies through the creation of spin-off companies. He is the Founder of the Northwest Territories Youth Education Program and a member of the Board of Trustees of the University of Alberta Foundation.

His many former directorships demonstrate a strong commitment to community service and educational support. Mr Ferguson has served as Chair of the United Way Major Corporation Division, as a Director of the Family Service Association of Edmonton, as a founding member of the Board of Trustees of the Ernest C Manning Awards and as a Board Member of Ridley College and the Conference Board of Canada.

In all that he has accomplished in the areas of business and community service, Mr Ferguson's dedication to teamwork and his commitment to integrity have been his guiding forces. His efforts have been acknowledged through the awarding of several honors including election as a Fellow of the Institute of Chartered Accountants in 1995. In 1998, in recognition of his outstanding business skills and his example of principled leadership in all areas, he received an Honorary Doctor of Laws from his alma mater.

The Chancellor is the ceremonial head of the University, chairs all Senate meetings, serves as a member of the Board of Governors, represents the University at ceremonial occasions and presides over convocation to confer all degrees. The Chancellor is a volunteer and acts as a liaison between the University and the community.

Mr Ferguson succeeds the Honourable Lois E Hole, CM, AOE, who, after two years as Chancellor, steps down on June 15, 2000 to fulfill her full-time duties as Lieutenant Governor of Alberta.

Graduates

The list of candidates for degrees and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically according to the establishment date of each faculty and degree. The winner of the most prestigious award in each faculty, if attending, is presented first.

The University Coat of Arms

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

Shield: a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

Crest: a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

Supporters: a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

Motto: *Quaecumque vera* ("Whatsoever things are true," Philippians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

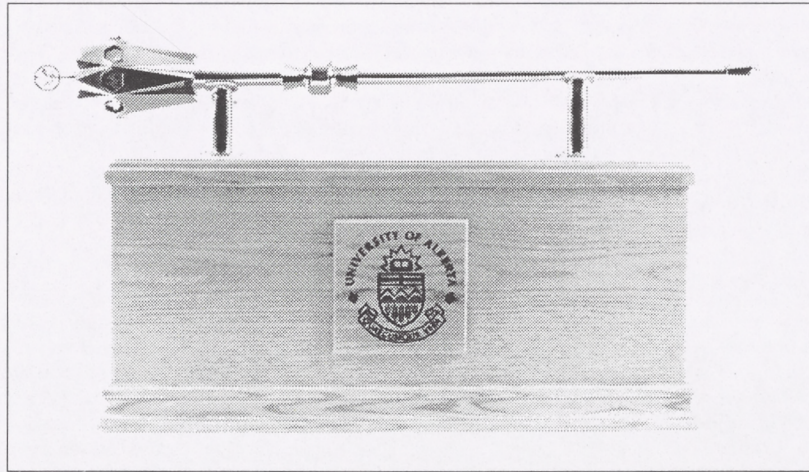

University Mace and Ceremonial Chairs

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970.

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

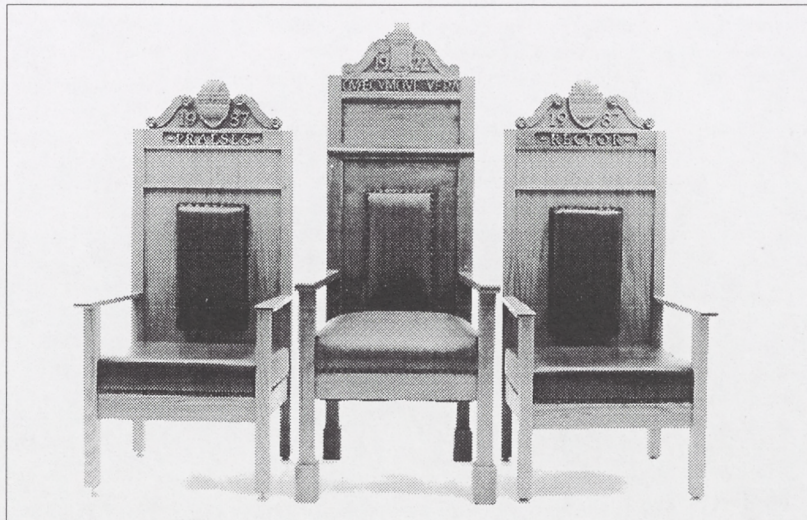

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power – but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

History of Convocation

In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the fourteenth century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*. The Doctor was one who, having obtained the mastership, had

successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colours the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University of Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board—the hard, square cap commonly used as academic headdress today—evolved from

the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. The following page provides a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a green cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Convocation Officer in the Office of the Registrar and Student Awards.

Academic Dress

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point. Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Doctorate Degrees

Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctor's hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

If you can, please share this program with a companion. Then, if you do not take it home, please leave it (in good repair) on the table outside the doors as you exit the auditorium. This will help us ensure that someone else can use it on another day of Convocation, and subsequently conserve paper.
Thank you for your assistance.
